

Year 3: Spring Term 1

Reading Books

Reading books will be **changed** once your child has read them. Your child will then sit a short Accelerated Reader Quiz based on that book.

PE - Swimming (On Wednesdays)

Please send your child to school on a Wednesday with their swimming kit (swimming hat, appropriate swimwear trunks / swimming costume, a towel and goggles if needed)

Homework

Every Friday, homework will be uploaded onto the Dojo Class Story.

The completed homework can then be uploaded onto the relevant portfolio for that week's homework or handed back into me.

The homework challenge will also run throughout the term.

Class Information Year 3

Spring Term 1 2022

We hope you find the following information helpful about your child's class.

This term we will continue to teach the Year 3 curriculum, as well as continually assessing and filling in any gaps from the previous learning.

You will find a brief overview of the curriculum content for English and Maths as well as support for your child's well-being. Information about other subjects will be sent separately in a more detailed 'Knowledge Organiser'. This information is designed to give you a flavour of what the children in Year 3 will be learning this term as well as some more detailed information on the knowledge we expect children to know at the end of this term.

Many thanks for your continued support.
Miss Rudd.

English

In English this half term, Year 3 will be learning to write an information text whilst learning the model text 'The Manchester Ridgeback' through Talk 4 Writing methods. Year 3 will develop an understanding of the key features needed in writing for an informative purpose before writing their own at the end of term. The class text we will be reading this term is The Land of Never Believe written by Norman Messenger.

In class, Year 3 will be continuing the RWINC spelling programme. Year 3 will be consolidating aspects of grammar this half term such as: fronted adverbials, punctuating direct speech, correct use of tense and clauses. Throughout the term we will continue to 'gap-fill' areas of teaching and learning that were missed. This will be done through assessment to inform teaching.

Maths

In Maths this half term, Year 3 will be extending their learning about multiplication and division. This will include: learning to multiply 2 and 1 digit numbers, dividing 2 and 1 digit numbers, comparing number statements as well as continuously developing times table knowledge. There are additional 'challenge' activities on hand each lesson to promote reasoning, problem solving and fluency skills. Maths will be taught through the mastery approach combining Maths No Problem and White Rose Maths.

In Year 3 your child will have daily mental arithmetic sessions along with a daily multiplication grid to practise their times tables.

In Maths throughout the term we will continue to 'gap-fill' areas of teaching and learning that were missed. This will be done through assessment to inform teaching.
