

Year 5: Summer Term 1

Reading Books

Reading books will be changed as needed. We continually monitor and assess your children's reading age through Accelerated Reader. Your child will need to bring in their finished reading book and then they can sit their Accelerated Reader Quiz about what they have read.

PE - Swimming On Wednesdays

Please send your child to school on a Wednesday with a swimming kit (swim hat, goggles are optional, swimming costume /swimming trunks and towel).

Homework

Every Friday, homework will be uploaded onto the Dojo Class Story. If you require a printed copy, please let me know. The completed homework can then be uploaded onto the relevant portfolio for that week's homework. The homework challenge will also run throughout the term.

Class Information Year 5 Summer 1 2024

We hope you find the following information helpful about your child's class.

This term we will teach the Year 5 curriculum, as well as continually assessing and filling in any gaps from their previous learning.

You will find a brief overview of the curriculum content for English and Maths. Information about other subjects will be uploaded separately in a more detailed 'Knowledge Organiser' via Class Dojo. This information is designed to give you a flavour of what the children in Year 5 will be learning this term as well as some more detailed information on the knowledge we expect children to know at the end of this term.

Many thanks for your continued support.
Miss Tuvey

English

In English this half term, Year 5 will be learning to write a personal narrative (recount) whilst learning the model text 'Wilbur's Diary' from Charlotte's Web, through Talk 4 Writing methods. Year 5 will develop an understanding of the key features needed in writing a personal recount. They will then innovate the model text before 'inventing' and writing their own.

The class text we will be reading this half term is Floodland by Marcus Sedgwick.

Year 5 will be consolidating aspects of previously learnt grammar this half term before developing further knowledge of: clauses, semicolons and colons, Standard English and word classes. Throughout the term, we will continue to 'gap-fill' areas of teaching and learning from previous years. This will be done through assessment to inform teaching.

Maths

In Maths this half term, Year 5 will be learning Shape, focusing on understanding and measuring angles. We will then be moving onto Position and Direction, focusing on coordinates, lines of symmetry and translation of shapes. There are additional pink challenge activities on hand each lesson to promote reasoning, problem solving and fluency skills. Maths will be taught through the mastery approach with White Rose Maths.

In Year 5, your child will have daily mental arithmetic sessions, gap fill sessions and opportunities to practise their times tables.

In Maths throughout the term we will continue to 'gap-fill' any areas of teaching and learning necessary. This will be done through assessment to inform teaching.
