Horrible Head Lice

Once again it seems that we have Head Lice in the school. We understand that they are a nuisance and can be very difficult to get rid of. The only true way is to be constantly vigilant in checking your children's hair.

Can we please ask all parents to continue to check your children's hair every night until the cycle of eggs is complete which takes up to 14 days. Also, if you do find head lice on your child's head it is **vitaly important** that you treat the whole family, as they are likely to be infected too! Hopefully with your help, we will be able to eradicate this problem entirely.

Thank you so much for your cooperation in this matter.

On Monday, Class 5 were lucky enough to be presented with Dictionaries which are heavily subsidised by the Rotary Club who had the following statement to make:

Early in the new term, Year 5 pupils were presented with their own dictionaries by John Thorpe and Adrian Parker from King's Lynn Trinity Rotary Club. Each year the dictionaries are paid for jointly between Rotary and the school, including a donation from the local company that owns the wind turbines we can see across the river in North Lynn. "Using dictionaries in school with their teachers in Years 5 and 6 can have a great impact on spelling and using a wider range of words" said John Thorpe. "We all need words to get to know each other, and to read and study for the future".
