# Year 5 - DNA Day

As part of DNA Day, Cambridge Science Centre sent our Year 5 class some DNA extraction kits. The children were given all the tools they needed to extract and observe DNA from bananas!

"On DNA Day we had things from the Cambridge Science Lab that we used to find banana DNA—it was gross!" - Goda

"We put bananas in a bowl with water and the bananas sucked the water up. We put it in the test tube and found the banana DNA!" - Dean

"First we put the freeze dried banana in a bowl with 4 table spoons of water and mixed. Then we put the bananas and water in a zip lock bag and crushed the left over banana. After that, we poured the banana mixture in a test tube and mixed in some lab alcohol and waited. We got a skewer and picked up the banana DNA with it. Then we put the DNA on a black card so we could see it." - Erin
