## Science Week – Science Faction Workshop

Monday 16<sup>th</sup> March 2026

Dear Parents/Carers,

As part of our celebrations for British Science Week 2026, we are delighted to share that all children will be taking part in an exciting, hands-on Science Faction Workshop during the school day.

Throughout the session, pupils will engage in a series of interactive experiments, each one linked to a key scientific concept:

- **Chemical Chaos** — Children will see science get bubbly, foamy, and wonderfully messy as they explore reactions such as “elephant toothpaste” and create their own colourful lava lamps.
- **Sound Explorers** — Through vibration-based activities, pupils will discover how sound is made and why some sounds are louder than others.
- **Forces and Motion** — Fizzy rockets and other demonstrations will help children understand how pushes and pulls affect how objects move.
- **Plants and Water Transport** — A simple but striking experiment will show how capillary action works, helping children see how plants move water through their stems.
- **Material Detectives** — Children will investigate why some objects float while others sink, learning about density through hands-on testing.
- **Fog Rings and Air** — Using air-powered activities, pupils will explore how air takes up space and can create visible effects even though we can't see it.

We are asking for a contribution of **£3.50** per pupil to go towards this event, please pay via MCAS by **Monday 16<sup>th</sup> March 2026**. You will find the payment item under the trip section.

Should you have any questions or concerns, please do not hesitate to contact us.

Yours sincerely,

Miss R Tuvey  
Year 5 Teacher & Science Lead
